THE ELOPING VICAR.

Deposition From Holy Orders.

After a trial lasting just over an hour . a Consistory Court at Loeds on 26th ult. found the Rev. Albert Knight, vicar of Christ Church, Mcadow-lane, Leeds, who eloped to Australia with Miss Fanny Grimes, a factory girly guilty of immoral conduct, and the Bishop of Ripon passed sentence depriving Mr. Knight of the living and deposing him from holy orders.

"Aided by photographs and letters, the prosecution proved that the man who in September went to live at a poultry farm at Heathfield, Sussex, under the name of Herbert King was the Rev. Albert Knight and that the woman who lived with him there as his wife was Fanny Grimes. For nearly three mouths the view kept up the deception, preaching at I peds on the will be given as wanted. Satisfaction Sundays and then rushing back to Sus-

On January 18 Mr. Knight while on a visit to Flamborough with his wife was supposed to have fallen over the cliss. While fishermen were searching for his body the vicar rejoined Miss Grimes at Heathfield, and subsequently the couple

sailed for Australia. "I have no hesitation as to the decision 'at which I have 'arrived," the bishop anid in pronouncing sentence, "I believe that the maintenance of whosesome discipline in the Church demands the graver sentence which has been pronounced (deposition from holy orders), and that nothing less could satisfy the conscionce of Christian people."

The new vicar of Christ Church will be the Rev. James Knowles, vicer of Westonsuper-Mare.

big passenger boat; and the loss of many lives had hardly begun to be lulled, when news comes of another, which, though not quite so horrible, is tragic enough. The passage boat from Shek H'i to another inland town, was last week suddenly overtaken by a heavy squall, and as the sailors were unprepared for it, the consequence was that the big boat, with its living freight was suddenly overturned in the midst of the wide river. There was of course, the utmost constarnation, for hardly any of the passengers could swim, and if they could, the struggling masses of men, women and children would have made it difficult for even strong swimmers to free themselves from the living struggling net. It is not known quite accurately how many lives were sacrificed by the accident, but up, and it is believed that many more have

been carried by the river to sea.

Hence the intense feeling that is different kingdome which theoretically generated. The telegrams suggest that comprise the Empire. Then it is only natural that these men should be formed into different groups, for all men do not possible that the telegrams enggerate the think alike, and they must naturally be drawn together, by common aims. But after all, there is no necessity for such strong antagonisms are are supposed to exist, and which separate bodies of men into distinct camps, and cause them to hate each other as if they were representatives of different nations. One other member of the clan spoke out frankly, and demanded that the books and the accounts should be examined by representatives elected for the purpose. This man, also named Lo, made himself famous, and had a following. He was asked to address a most ing to expound his views, and lo state his reasons, for the new departure. Whilst he was journeying to the meeting, he was suddenly met by three mon, who were armed with revolvers, and shot. The wound was not at first fatal, but severe. While, however, those who ran to the cene of the outrage, were clamouring he to where the wounded man should be carried, he settled that matter by suddenly breathing his last. There is a great commotion throughout the countryside, and ill-feeling is now stronger than ever. Orders have been issued for the arrest of the man who was first charged with malappropriation of the public moneys of the clan, for all are consinced that he da the prime mover in the assessination, and that he conceived this way of secuping from

Brain Fag, Nervous Exhaustion-

Just a change of opinion was enough to give Mr. W. King his present prosperity, for he realised in the nick of time that his way was not curing his brain fag and nervous exhaustion, so he tried the Phosferine way, Mr. King's method was to ignore his despondency and feeling of collapse, and persuade himself there was nothing unusual in the painful fatigue the lightest effort to work cost him, until, as he steadily got worse, he resolved to drop his own opinion and see what Phosferine could do. The result was so astonishingly beneficial, even after a few doses, that the brain fag and nervous exhaustion ceased entirely, enabling him to do sure work than before and yet not feel the strain. This remarkable advantage is seen in the extraordinary energy and vigour of Mr. Kings public speaking, and so amazingly have his prospects improved since his speedy recovery; that he declares he had to come forward with the evidence of the magnificent benefit he derived from Phosferine.

Quite Gone—Never Return.

Mr. W. J. King, School House, Trumpington Road, Forest Gate, E., writes:-"I am writing to add my name to the list of those people who have found Phosferine to be the Greatest of all Tonics. Some time back I was very much run down through overstrain brought on by incessant bodily exercise and mental application. The usual tendency of mankind is to give up some of their work, have a rest, and at the same time take medicine, so. I endeavoured to keep going on without seeking advice, but as I was getting werse I found that policy would not do. Having heard many friends speak about Phosferine, and one in particular offering me some. I decided to give it a trial. Purchasing a 2/5 bottle, I began to doctor myself. The result not only astonished me, but others also noticed how much better I was, even although I had only taken a few doses. I found I could do the same amount of work saier, and at present am able to do more than before and yet not feel the strain. I have a good deal of public speaking, and I find an occasional dose of Phosferine is a great benefit"-May 28, 1912.

WOUNDS AND PENSIONS.

ESTIMATES.

There are many curious points in the army estimates which in the mass of figures escape the public purvice. For instance, take the half-pay of the field. marshals, who always remain on the active jist. It is fixed at the rate of £1,300 a year each, but it will be found that two officers were drawing £2,000 per annum (the late Viscount Wolseley and Earl Roberts) as ex-Commanders-in-Chief of the of the British army, and that Viscount Kitchener receives no half-pay while employed as Agent and Consul-general in

WOUNDS AND WIDOWS. The pensions to officers and others who

have lost an eye or a limb, or have sustained other serious injury on service amount in number to 327, and in sum to £24,750. The rates at which pensions and gratuities for wounds and injuries may be awarded under the Army Pay Warrant range from £400 a year to a lieutenant. general to £70 a year to a subaltern. This discrepancy would seem to imply that the loss of a limb to an elderly officer is nearly six times as important as to a young one just entering on his career as a soldier, and practically still on the threshold of life. But only half of these rates is allowed in fully equivalent to the loss of a limb. Governor Eckman, of the Mountain prorate applies for injuries received on rived over the trail, and knowing the

Again, the pensions awarded to the widows of officers range from £120 to those of general officers to £40 per armum to those of subalterns, though double rate may be granted to those whose bushands have been killed in action, or who have died from injuries received on the flying

usual allowance has been slightly increased, and where the recipients are serving in India the annuities are thargeable against Indian revenues. These swards comprise 6 to the Cavalry, 8 to the Royal Artillery, 1 to the Royal Engineers, 38 to the Infantry, 1 to the Royal Army Medical Corps, and 13 to Colonial and

Irregular (South African War) Corps. The Yeoman Warders of his Majesty's Tower of London are credited with the sum of £960, and gratuities for distinguishel conduct and long service and good conduct to warrant and non-commissioned

officers are stated at £11,500. It may be also of interest to these who attended the Royal Naval and Military Tournament at Olympia last year to learn that the 3rd (King's Own) Husers, who executed the musical ride with so much precision, are the only cavalry regment of the line that has, in addition to the usual fixed establishment, an allowance for a kettle-drummer and an extra horse. Few will forget the " milk-white steed," that seem so thoroughly to appreciate the honour of bearing the silver kettledrums taken from the enemy by its grand old regiment at the battle of Dettingen.

YOUTH'S TERRIBLE PALL.

Bagura, April 18. Attempting to climb, over a landslide on the Haight trail yesterday afternoon, Chester Gee, the 20 year old m of E. S. Gee, plunged 2,000 feet to his death

in the garge below. The young man was en nute to Haight's place; accompanied only by an Igorot cargador. He arrived a Camp Thirty at noon, and there had lack with However, it may be noted that the same vince. Governor Eckman had just ar-"flying" duty as for wounds received in danger of negotiating some of its most. dangerous places advised the unfortunate young man to spend the night it Camp Thirty and proceed on his way his morn-

> This advice was not noted upon, and shortly after lunch Gee with his Igorot started out. Several hours ister the Igoros raced into Camp Thirty with the terrible news that young Gee had fallen over the precipice,

Governor Eckman immediately left Camp Thirty with a party, and after a difficult sourch which lasted mill mid night found the crushed body 2,000 feet below the trail. The body was brough to Beguie to-day and prepared for shipment to Manila Mr. and Mrs. Gee, the latter the boy's stepmother, will accompany the body to Manile, where funera in most cases £10 per annum to war ant services will be held on Sunday at the F you have lost your appetite, one of officers, non-commissioned officers, and Presbyterian Church. tempt to give in actual figures the toost now of the ships to form a Canadian fleet unit corresponding to Labuan. that of Australia, but he adds that the increase in cost for ships built in Canada would equal 25 or 30 per cent. over the prices now quoted in ministered. Great Britain. The interesting point is that now Canada, for such a ficet unit as Australia has built, would have ago, as compared with seven millions Japan without launching. for three battleships of the latest type The First Lord points to the higher cost of maintaining these ships in Canada, owing to the economic conditions prevailing there, and estimates that, at Canadian rates, the cost of maintenance would be £581,250, per annum, against £412,192, under prevailing conditions here. On the whole points out that our resources are now strained to their utmost limits, more especially as regards lieutenants, specialist officers (gunnery, torpedo, skilled professional ratings which canby years of careful training. His tons German. arguments undoubtedly force one to the conviction that the most practical and economic course for Canada to pursue-at the present time, at al ships, leaving the manning and other provisions to the Imperial authorities. But, of course, the home country cannot dictate to any of the Dominions over the seas the policy they should pursue in this matter.

Sues for Wages.

In the Summary Court this morning pore and Hongkong she either lost from her before. Mr. Justice Kemp, James Hook, a cook, of 15, Wellington Street, sued Edith Morrison, of 49, Hollywood Road, claiming \$15 alleged to be wages due and \$20, a month's wages in lieu of notice.

Mr. Otto Kong Sing, solicitor, appeared for defendant, plaintiff being unrepre-

Plaintiff said he was a Christian. was employed by defendant as cook at a monthly wage of \$20 from August last year till March 25 when he was discharged. He did not know the cause of this and when he asked defendant she told him there was no business and he was no longer required. He was given \$15 by the boy and left next day. He had to wait three days for his wages and the boy told him that if defendant did not pay him he could sue her. Defendant said she would send for the police if he asked for more money and did in fact blow a police whistle, which was respond-

Expert evidence was also given for the plaintiff by Mr. Ram, architect. The case was adjourned till to-morrow.

ALLEGED ARMED ROBBERY.

Case at Magistracy.

At the Magistracy this afternoon before Mr. Hazeland, Chan Kwai, 33, matched builder, of no fixed abode, and Chan Cha Hi, an oyster bed coolie, also of no fixed abode, were charged with being concerned together with eighteen others not in custody in an armed robbery committed a one o'clock on the morning of March 30th and breaking and enterting houses in Ha Tsun village. The men were also charged

with assault and with putting people in

Captain Woodhouse said he proposed to take the case against Chan Chau Hi first, and the case against Chan Kwai was consequently adjourned. Captain, Woodhouse in outlining th

case said that on the night of March

29-30 an armed robbery occurred at Ha Tsun village, near Ping Shan, in the Ping Shan police district. A band of robbers came from Chinese territory and an attempt was made on No. 5 Ho Tsun village. Nos. 7 and 44 were entered, but the most serious attempt was that made on No. 5, which was accompanied by rifle fire and violence. The two other houses were broken into and things stolen, but nothing was stolen from No. 5. The reason that nothing was taken from No. 5 was apparently that the robbers did not make an entrance, as they were resisted by the inmates. After the robbers left the place, the police patrol approached they were fired on. The police returned the fire and gave chase and Chan Chau there Hi was captured as he was escaping. He was taken to the police station, but no thing was found on him. He was smon was captured about 400 yards from the

CORRESPONDENCE

GENERAL POST OFFICE.

(To the Editor of the "CHIMA MAIL.") Sir,-We wish to warn the public with reference to the insurance of parcels at the Post Office.

Last year a merchant insured a parcel of gold leaf worth \$400 for that amount, and the registration clerk gave him & receipt showing that the parcel was insured for \$400, and charged him the usual fee for \$400.

The parcel was lost in transit to the Dutch East Indies. The Hongkong Postmuster-General paid: \$200 only, and disclaimed responsibility

for the balance.

The Postmaster-General wrote as fol-"The limit of insurance on parcels, to the Dutch East Indies is \$200. . . . By an error on the part of a clerk of this office the sender was allowed to insure for \$400, for which this office

accepts no responsibility." The matter was then laid before His Excellency the Governor, who confirmed the Postmoster-General's repudiation. It is obvious that if the sender had been informed of the limit he would have

divided his percel into two. It seems to us inequitable for a Government to repudiate responsibility for the acts of its officers, to whom the public are invited by the Government to entrust valuables for insurance in return for the payment of a promium calculated to cover the risk involved .- Yours truly,

EWO COTTON MILL FIRE

The thirteenth year of the current century, says the "N. C. Daily News " of April 19, seems to be a very unlucky one f r Shanghai, so far as damage by fire ig concerned; for within a period of four wicks we have had two very disastrous foreign fires involving a loss of Tis. 1,000,000,

the last few days. About 3.50 a.m. yesterday, the officers and sailors of the U.S.S. Helena, which tenegrins attacked Skutari on Monday is moored down river on the Pootung side, the mill itself and the foreshore, was on fire, and immediately sent sahore a landing The Turks made a counter-attack officers of the ship, to warn the staff of the

A ROADING FURNACE. In the mesutime, a Chinese constable had detected the outbreak and reported to Yangtszepco Pelica Station, with the result that in a few minutes the Police were in attendance, and the mill staff, the lody of officers and milors from the Helens, and officers and sailors from the Japanese menof-war Tsushims and Mogami were doing all they could with the appliances at hand to quell the fixmes. The contents of the godown consisted of such inflammable material as cutton cloth, yaru, etc., and in a few moments the godown itself, brick walled, became a roaring furnace, casting a glare over the sky for many miles.

Assisted by the wind, the sparks were carried to surrounding buildings, which included the Laou Kung Mow Cotton Mill the Lun Chang Paper Mill, and the Babies' Home; but, fortunately, through the energies of the various staffs of there establishments the flames were extinguish-

FIRE BRIGADE AT WORK.

The Shanghai Fire Brigade was soon on the scene, but in the meantime the godown was one mast of flames and the mill itself, as well as an extension running down to the river in an easterly direction was in danger of catching fire, and, in fact, surrounding structures of less solid material were ablaze.

With the arrival of the Brigade, the fear of damage to the mill and surrounding buildings was soon relieved; for with the engines at work and a plentiful supply of water, the burning godown was quickly isolated. It was impossible to save the godown and its contents, but it is worthy of note that the mill and its operatives ceased work for only a short period and ye-terday work was being carried on as usual; while the machinery and yarn in the mill extension suffered only alight damage. THROUGHOUT THE DAY.

Although the finmes were quelled early yesterday morning, the engines and corps, under the direction of Engineer Pett, were kept hard at work throughout the day, in an endeavour saturate the smouldering dibris: Only the four brick walls of the godown were left standing but the danger of a fresh outbreak had to be faced and the coolie corps atood by. CURIOUS LEGAL STORIES

JUDGE WHO SAW A SUICIDE IN LAW

Several good legal stories were told in Middle Temple Hall, when Mr. John Sankey, K.C., gave as address on "Liability of Masters for Accidents to their Workman." The lecturer, referring to the Workmen's Compensation Act, said that he was once in a compensation case where small colliery boy had gone down a mine for the first time in his life. The boy was sent by his father to a neighbouring stall in order to get a rail, but came back declaring he had seen the devil (laughter). The boy was so frightened that he was unable to go down the mine again for a month. "And," added the learned counsel, although the ogre was only the colliery for him" (laughter).

Mr. Justice Bailbache, in responding to vote of thanks, related two curious personal experiences. Under common law in the old days he recovered 2300 compensation for a man employed at a large works. The man got it in a lump sum, with the result that the works were stopped for too days (laughter). At the end of that period the man went back to work just as poor as he was before.

The other was a more tragic incident. He (the learned judge) was called upon to. raise the defence of cummon employment in an action brought by a man against his employer in the days when a seamen was not covered by the employer a li-bility. The man had been badly injured through the nerligence of those in charge of the ship. The defence of common employment succeeded. When the the jury roturn their verdict be palled a revolver out of bis pocket and shot himself in court. That tragic incident give him (bis lordship) the greatest possible distante for the defence of common employment, and he was glad. that that defence did not fall under the Workmen's Compensation Act.

Face and Arms Covered with Eczema. Suffered Immortal Agony. Cuticura Soap and Ointment Effected a Complete Cure in Three Weeks.

"It gives me great pleasure to bear testimony to the marvelous healing properties of Cuticurs Soap and Cuticurs Ointment. I owe them a debt of gratitude for my complete cure from six years' liching torture of eczema. My arms and face were covered and doctors said it was incurable. I used to dread work for then I got very hot and itched torribly and my arms swelled so at night that I could hardly rest. Then I read the offer of samples of Cuticura Soan and Ointment in the paper, which I advise all skin-sufferers to apply for.

Before I tried Cuticura Soap and Ointment I suffered immortal agony; but after the sample had relieved me of the itching. kept on with the treatment for three weeks and it effected a complete cure when doctors had pronounced it hopeless. Cuticura Soat and Cintment are a national boon and a great relief to all who suffer from diseases the skin. I am a constant user of the Cuticura Soab, and the Cuticura Soap and Cintment are surely invaluable remedies for exama from which I was a great surferer until I tried the Cutleura Sore and Oint-ment," (Signed) Enoch Evans, Baron Hill, Beaumania, Isla of Anglesca, New Yalos, July

Cuticums Soap and Cuticum Cintment afford the speediest and most economical treatment for skin and scaip humours, of young and old. A single set is often sufficient. Although Cuticum Soap and Cintment are sold throughout the world, a liberal sample sold throughout the world, a liberal sample. of each, with 32-p. book may be had, post-free, from nearest depot: F. Newbery & Sons, 27, Charterbouse Sq., Lendon; R. Towns & Co., Sydney, N. S. W.; Lennon, Ltd., Cape Town; Muller, Maclean & Co., Calcutta and Bombay: Potter D. & C. Corp., Boston, U.S.A.

MAMMOTH BLUE FUNNEL LINE

Another big liner which is soon to ma her first acquaintance with ocean vayaging is the Nester of 14,250 tens, built for the Blue Funnel Line of Messrs, Alfred Ho and Co. Nothing has been more-remar able of recent years than the number fine new passenger and cargo liners bui for the trade with the Commonwealth, ar it is claimed for the Nestor that she the largest of them all. It is, however given to no vessel in these days to ho that enviable position very long, and th Nestor is apparently destined to be su passed in point of size by the new Whi Star steamer Ceramie, which is of no le than 18,000 tons. No vessel of anythin like these dimensions has yet been see in the Australian trade.

SMALL-POX AND VACCINA-TION.

We have been requested by the medica faculty of Shanglai to draw the attentio of those employed in the vessels of all China coast to the urgent need of period cal vaccination as a means of lessening th virulence of attacks of small-pox which a so frequent and almost unavoidable in suc a place as China. Whatever may be th opinions of anti-vaccinationists in Euror it has been demonstrated by the ductors Shanghai that those who have succumbe to an attack of the disease have invariable been the ones who have not been inn culated since childhood, or have not bee protected at all, and such a record shou be a sufficient guarantee of the negeral

of availing oneself of such protection the science of medicine affords. Two cases of officers of ships have been mentioned as having occurred during the last month, both of which proved fatal ar of which the patients had not bevaccinated since childhood and the doct who attended them in what proved to their last illness is convinced that had the been innoculated within the past four five years their lives could with certain

have been saved. Sich a pronouncement should sufficient to cause serious thought to the who have lightly put saids what appea an obvious duty to themselves, involvin as it does such trifling discomfort and inconvenience, since the operation can

carried out on board by the doctor of the firm attending the ship. While it might not be claimed the vaccination, even were it carried out ever year, brings absolute immunity from a attack of the disease, the assertion those who can claim to speak with auth rity that every case of death or serior disfigurement has occurred among tho who have not been vaccinated for som

time cannot be lightly set aside. Though the worst sesson for small-po at Shanghai is drawing to a close, the di ease is one that is always with us and th chance of its being contracted by the employed in the shipping of the coast infinitely greater than is the case wil

hose on shore Officers and engineers find themselve compelled to rub shoulders with dec passengers of the most filthy description i the exercise of their duties, and though these may have gained for themselves som hereditary immunity through repeate attacks, there is always a grave danger the disease being carried from a sufferer t an unprotected foreigner without the cool who fransmits it suffering from it himsel The fact that two officers who had no been vaccinated since childhood, have die of small-pox within the last month whi every case where vaccination had recent been carried out has resulted in the ultimate recovery of the patient, is is it itself a sufficient inducement to stand on the safe side. When to this added the grave warning of the doctor that unless vaccination is carried out least every five years the sufferer deliberate r commits himself to the possibility paying for his neglect with his life. should require no further inducement o the part of those who have not been ! soculated sines childhood to attend to the matter with the least possible dolay .-Shipping and Engineering."
